

Are you planning **FIBROID** treatment with radiofrequency ablation (Acessa™)?

Join **ULTRA** to share your experience!

Researchers at UCSF are enrolling women in **ULTRA**, a nationwide study to help patients and doctors better understand the effect of radiofrequency ablation on:

- Fibroid symptoms
- Fertility and pregnancy
- The need for additional fibroid treatment

Here's what the study involves:

- Complete questionnaires about your fibroid symptoms
- Receive gift cards up to \$50 for your participation
- Information will be kept confidential

If you are interested in being in this study, please contact the research coordinator

Call: (415) 297-3114
